Because I am Interested in political carrier and only political carrier make strong India. India has a great youth power And if you want to changes In our India. Then elected to only youth | India is with great culture, Great Religion and have great History like Chatra pati Shivaji Maharaj. But, there is one thing. Now, India (specially youth) directed towards Western culture That's a big tragedy for us. In political view there is another thing is use of youth is not in a Parliament and in political carrier. To make our India peaceful, Developed India we have need to Create a youth leader | Firstly, I am Participated in BCS for make me strong for leadership. And I know, BCS platform make me strong and successful leader. Now, I am Participated In BCS for change my attitude My personality. Because to change Other people, then we need to first change. My objective in BCS for to create Great youth with peace, and quality to lead |

But i have been a good player of Badminton and Kabaddi in my school. I can work for the various political and sports factor for my region. I am a good player of Badminton as wrll as Kabaddi. I want to motivate others too. | I am from a rural part but my parents have always taught us that we dont belong to place we live in but we belong to what we do at the place to make it more developed. I want to start from my region and then explore the world and bring positivity amongst the country. | Today's scenario of the world is that many people are suffering from various problems and not everyone is reaching them out,but we the young Indians want to be the part of them and help them. The World is suffering and to become a developed Indian we need to look out at the problem together rather than sitting and discussing. | I want to be the part of this contest and rather being a contestant,I want to win too. I want to help the people and be a mediator. I want actually make the drastic conditions good. I want to hold on the positivity in people and make it worth that every citizen is here to survive and make out of themselves with all rights and duties.  |

Football is the game of team spirit and coordination of all the team members. I was choosrn as the captian of our school football team and led our team t many tournaments. We won district, regional as well as state level championship matches . I was aslo selected for the national level football matches conducted bySSPF. Other then sports me and 3 4 of my friends aslo take classes of the children living in slum free of cost. | Our nation India was once a VISHWAGURU. But in the past centuries it has lost its heritage and legacy. My ambition is to see Bharatmata where it belongs i.e. at the top of the world.I would take every step possible to se my dream come true. Although the dream me not come true untill i am alive but it would be few steps closer. This can be possible only if the society is not discriminated on basis of race and religion.The emotion of equality and brotherhood should be inducted in ever citizen of India. | Unless we can determine who we are as a society we cannot determine what is the priorityof our nation. In present scenario I see India is at focus of worlds major issues whether it is politics, science and technology or education peace mission etc.and the list is endless. Earlier the country that was taught to be asa land of just elephants and snakes, poverty and hunger now every country wants to enter in collaboration with it because they have realized that it is not possible to carry forword the process of world development without India. | The youths which are living and studying in my district are not at all interested in politics which is why the corrupt leaders and officers are taking advantages of the people living here. I want to enege more and more educated and disciplined youths to engage in politics.   |

I would like to develop my country and want to solve some major issues such as air pollution, poor waste management, water pollution, preservation and quality of forests.</p> <p>I would like to take initiate in politics to develop my country and to strengthen the democracy.</p> | <p>In many countries people look to religion as the primary source of their views on social and political issues. India is the world's largest democracy. India became a democratic nation post independence in the year 1947. Thereafter, the citizens of India were given the right to vote and elect their leaders. In India, it gives its citizens the right to vote irrespective of their caste, colour, religion etc. It has five democratic principles- sovereign, socialist, secular, democratic and republic. The politics of India works within the framework of the country's constitution. India playing a bigger role in the world affairs.</p> | <p>To lead the youth and guide them properly. I want to convince the youth that they should take initiate in politics. Educated youth should contribute themselves to develop the nation and corruption free politics. Today's youth have more knowledge about worlds affairs and technology. I want to contribute myself to fulfil the dream of Rahul Karad Sir. I want to promote the agenda of BCS to every youth. I would like to connect the youth from various region into the BCS. Rahul Karad Sir's thoughts, their concept of BCS motivate me to become active in BCS and politics of development.</p> |

Sanjana Yeshwant Gawade.I despirately want to work for Women hence currently working with ABHIVYAKTI Sanghatana at Pune who organises wide range of programs to create awareness amongst people on various aspects of women.   | I strongly believe that Indian Enducational Quality is far more better than the other countries but today we need to focus on Research & funding.. Being Multitasker & working with focus are the key strengths of Indian people.  | A wrong leader leads the entire community towards wrong direction & automatically entire society has to face those, hence Educated youth better lead the Society this is the reason why I want to contest the in the BCS Students Council Election 2020.  |

We work on subjects as child education, youth affairs, women health, and other welfare activities. We are serving society since 2017 and also intend to work on eminent subjects in our society. | I believe in There is no substitute for Hard Work . I used to take part in different social activities and programs since my college days and continues till date. I think it was a process of understanding my abilities and also the surrounding around me prominently the loop holes in society. Apart from some personal goals my wish list include to be a social activist to serve the living being and be an efficient youth leader by taking part in active politics. | We always come across words India is a vast Country Yes its true. Its a country of youths. After globalisation and privatisation in 1991 our country has progressed a lot and its still progressing. Though its facing lot of problems this days, we should not forget that our country is agricultural and taking this as an asset along with industrial development there is vital need to uplift agricultural and livelihood in villages. | 10th BCS was the first time to attend BCS. And being the witness of such a fabulous youth platform there is no doubt in my mind that if i take part in activities of student council it will be one of great opportunity for me to groom leader within me. If given a chance I will definitely strive to connect many youths in BCS and introduce to this platform. also connecting with BCS will be value addition to my current work. |

Achievements in sports domain :</p> <p>A) District level, Region level, State level championship in Yoga/Gymnastics competition.</p> <p>B) A certified yoga teacher having two certifications.</p> <p>C) District level Badminton champion.</p> | I'm passionate about human resource management, finance, socioeconomic structure and political science. I want to be a social reformer as well as philanthropist in future which could change the society. India has truly fantastic and diversified culture but lack of management skill, healthcare and the education in lower class families. I would like to empower those families by helping them in various ways on a big scale. After all, we are only as strong as the communities we empower. | <p>Firstly we have to understand that India is a developing country and other many countries are already developed. We face a big difference in education sector, social reformer sector, hunger scale, poverty and pollution etc. In India there are large number of uneducated children because of poverty and poor finance. India is high in pollution index. And citizens negative mindsets and unwillingness for starting something new innovative. In India people tend to give more importance to communal activities than development and self upgradation. Lack of quality educational recreation facilities than other foreign universities.</p> | <p>Bharatiya Chhatra Sansad provides a platform to students who are truly passionate about sustainable politics and curious about governance. More importantly Students council election gives me opportunity to represent myself as a Student leader that I can serve for the betterment of society in more effective way. And I would like to connect educated students to BCS so they can express themselves on big platform. Because today's students/Youth is tomorrow's future. We can start new initiatives like starting various clubs of students kinda finance, business, service, social, entertainment, literature groups. Bringing a community that students can connect with each other.</p> |
