I am an avid participant of political debates and competitions and also a volunteer of IPAC , administered by Mr Prashant Kishore. i make videos on social and political issues for youtube and also an UPSC aspirant. I also possess knowledge of social media, digital marketing as well. I am a good orator and a public speaker.	India may appear to be a country made up of well off population with massive wealths on the surface, but I consider it to be largely a developing country, which despite its 70 years of independence and democracy, has lots of work to be done on the grassroots level. Globalization is the new world order, and India needs to define and redefine its relationships with major economies like the US in an efficient manner for the best possible interests of its 1.3 billion people.	I have a healthy experience of dealing with people as a leader, and believe that BCS is an excellent platform for my many aspirations as a sound leader, on who can work for the best possible interests for my countrymen. I shall endeavour to introduce bottom up approach in my works and impress upon its necessity and benefits for a country like India to others as well.

Jitendra Kumar Sahu	State Coordinator - BIHAR (MADHUBANI)	7808876720	jitendrakumar754580@gmail.com	BA third year	Male	I have been awarded and honored by college ,nss, university because of my work in educational and social welfare to spread awareness in society	I want to be DM first then CM and lastly PM because I believe in my struggles i know only one thing that i can do what I want	Terrorism, poverty, global warming, quality of education ,and good health are one of the biggest challenge for not only in India but also world so a platform must be and work properly to solve all problems	I want to bring a great change in me and society and I know that it will happen through politics and this platform will give me one of the biggest Chance
Kumar Vivek	State Coordinator - BIHAR (PATNA)	8863870352	kvbihiya@gmail.com	BA	Male	My social life began in 2015 with the dignity of the city minister of ABVP which continued uninterrupted till 2017. In the same year in 2018, my social life joined BJYM, the youth wing of Bharatiya Janata Party, the world's largest political party, and till writing, I have been on the responsibility of district spokesperson.	Something special about myself is that after completing 10th class education, I started wandering in my social program and at that time joined me in the "Trianga Yatra" of public consciousness. Since that day, with the slogan "Rashtra Meri Jaan - Yuva Shakti - Rashtrakash", the fast-unto-death, signature campaign, outrageous march for development in his city has been associated with awareness and clean India for naming students.	For the empowerment of the nation dying in India and the world today, the youth should remain in the forefront of politics and politics is necessary to get rid of the bad filthiness of saying that politics is dirty. Today, India will have to stay on the path of zero starvation, population control and to stop the anti-national activities.	I want to elect Bihar State Convenor in the BCS to be held in 2021 to increase participation from each district of Bihar and inspire the youth. My goal for the 11th Indian Student Parliament to be held in 2021 is "We are 5 from every district, we will clear tomorrow's politics".
ADITYA AGRAWAL	State Coordinator - CHHATTISGARH (Balodabazar-Bhatapara)	7978144417	aditya7.kls@gmail.com	B.A.LL.B., LL.M.	Male	I was a senior local coordinator for students for liberty, a Not-For-Profit organisation of United States of America and was later on selected as among top 15 leader. I worked for it for about 3 years. I have been a University gold medallist in chess and was honoured by the Vice-Chancellor for the same. I am also active in law filed and have worked for the rights of poor who had no means to defend themselves. I have also dedicated work at the chhaChhattis Human rights commission for the rights of the poor.	I am a master's student of law at the National Law University, Delhi(the premier law school of the country) and think of law as a weapon against injustice. I have been constantly using this tool to help people who have no means to defend themselves. I have also helped my friends file for patent. I aspire to be a social worker with adequate means so that I can help where it is needed.	India is a culturally and historically rich country which has the potential to guide the world to the right direction and end all the chaos present in it. Whatever answers we need are present in our ancient texts and we as youth of this country just need to take pride and glorify it. . India is the most ancient and young country at the same time and we need to take leasons from the past apply in present and prepare to be the world leader in future.	It would be an honour for me to be part of Bhartiya Chhatra Sansad be it howsoever small. When I was filling the form I thought it to be like any other regular sized youth parliament but I was astonished by the grandeur of it. I am a willful person who makes it a passion to help people irrespective of the scale of it. I want to have adequate means so that i can help people and BCS has same goals as me. Therefore I want to join BCS to contribute to it and amplify my work.

Also I was captain of school cricket team and secured 1st position. I am gold medalist in Shotput and Chess in school level. I got selected for NSS Pre- Republic Day Parade Camp 2019 which was held in Gwalior	I am versatile , hardworking and very determined person. I put all my efforts when a task is being assigned to me. The one who inspires me is Dr. APJ Abdul Kalam, his journey from being a poor boy who than get recognised as Missile Man of India really fascinates me, His ground to earth and humble nature made him 'People's President' which inspires me the most.	According to me, the best term which can be described is 'Unity in Diversity' which has always recognised as a source of strength for the country. Combination of different cultural , religious and regional background has always resulted towards positivity. Also in India there is existence of Joint family in which a leader is assigned amongst the members to take better decisions for family, similarly in India the opinions and initiatives of leaders play an important role for smooth functioning and development of country.	I want to contest in BCS Students Council Election because I believe promoting opportunity and finding a leader from youth is important and I being an student speaker can motivate and help youths to participate by sharing my own experiences . Mission: -Facilitate environments to educate citizens concerning current and relevant political issues. -Engage youths to actively participate in political process.

Atharva Rajimwale	State Coordinator - CHHATTISGARH (RAIPUR)	7974224849	atharvadadarajimwale@gmail.com	BE in Electrical engineering semester 4 th	Male	As i m a staunch Volunteer of NSS SO as n NSS Volunteer i basically performe ground level working such as redecoration of the govt schl of our àð—à¥(àð  àð—à¥àð°àð%àð® and making people aware about aids, pollution etc. and also conducting Medical camp carrier guidance sessions etc and I feel proud to be the part of the unit that has won the Best Nss Unit ,State Award 2 consecutive times..	Only 2 principles in my life 1.Expose the truth 2. to Keep the spirit of patriotism in yourself and in others too. And my aspirations in my life are 1.The youth should be in right path and right hands. 2. If i will be a leader in future the i should follow my own words ....no power and money should influence me.	In the last few decades, India's role in socio- political background has increased remarkably. Nowadays India is considered as a responsible nuclear power, a country which is a member of BRICS, SAARC and many other institutions and having a great influence over the world. In this new era where the world is focusing on clean air, good food, pure water, health, growth, mental health etc, we, the Indians have these factors in our very own origin and culture. India has now emerged as a new spiritual and powerful leader and thus this is the beginning of a new India.	I want to encourage the youth to think about the country, to understand that each one of them serve a greater purpose. I also want to make parents understand that they need leaders like Bhagat Singh and Mahatma Gandhi in their very own house and not in the neighborhood. I want to enlighten my fellow youth towards the nation building thoughts and work on it rather than just posting videos and repeating the words of few celebrities.

I believe in a world full of piece where all the talents have the opportunities to fly. I dream of an India that leads in the process of global unity and ignites the merits and the talents among the masses.	First, i wish to be the part of the national level decision making process. Rajni Kumari	State Coordinator - JHARKHAND (JAMSHEDPUR)	8427581531	Choudharyji78@gmail.com	Under graduate	Female	Being NSS coordinator I hv organised ,volunteered and coordinated various awareness camps regarding blood donations,stem cell donations,donation during flood and other disasters,vigelence awareness ,solid waste management, and others	I am student aspiring to see my locality and ultimately my country to be a developed nation with zero poverty so that no one sleep hungry ,a country with no corruption i .Another thing i aspire is to bring revolution in jharkhand in terms of agriculture.	India is a great country with rich culture and diversity,we have great leaders and civilization,there are unlimited resources and opportunities,we must respect our countries culture and tradition,there is need for globalization of the Indian rich culture and heritage,there is huge amout of power and young blood running through the veins of the youth which has to be diverted in the right direction so that India is again known as 'sone ki chidiya'.	If a get a chance to be selected as a member of student council,i will conduct various awareness programmes in the rural sectors of the jharkhand province for their upliftment in aspectes of education .and ultimately contributing in nation development.
SHUBHAM SHANTI J	State Coordinator - JHARKHAND (RANCHI)	7857910134	shubhamblue494@gmail.com	GRADUATE	Male	I have participated in two national conferences like ABVP 63rd National Conference which was organised by ABVP in 2017 and LOKMANTHAN à¤-à¤%à¤°à¤¤ à¤-à¥à¤§ which was organised by Ministry of Youth, Culture and Sports Affairs, Government of Jharkhand in 2018 and in both conferences I were in committee members and successfully organised both National Conference.	If I say true, I were not having any aim earlier but today I can say that I have an aim in my life to use my education experiences and what I am learning to educate my society and to spread awareness on the topics which affects their life in many ways.	My views on India and the world is that everyone is talking on the matters ike women's empowerment, Equality, No poverty and on the other topics which is very important in the development but all these issues can't be achieved without proper communication because there is still a very big communication gap between governments and the peoples, if we really want to achieve these goals we must have to connect to each and single person in the society.	The reason why I contest in BCS Student's Election is that every student, I am only talking about Student who are pursuing education in different Universities and Institutions and carrying different ideas which can lead to form a very strong and healthy society and this lead to prosper nation, I will never say strong nation because when we use the word 'strong' it creates a sense in our minds that others are inferior and the platforms like BCS should be there to recognise their work by which they should encouraged to do the works like to serve their country socially.
HARSH VARDHAN KUMAR	State Coordinator - JHARKHAND (RANCHI)	7903116717	kumarharsh3234@gmail.com	Integrated Master's in Mathematics & Computing (pursuing)	Male	I have been associated with NSS (National Service Scheme) for the last 3 years.Based on my previous work performance, I have been appointed as the President of NSS, BIT Mesra for the session 2019-20. Also, I have been given the responsibility of Boyâ€™s representative of Student Grievance Committee, BIT Mesra.	I want to loose myself for the service of nation (may be through political or social field). The eagerness and the passion to make society happier, safer and better place motivates me to work for the betterment of the society and maintain higher standards of discipline and sincerity in my work.	The social structure of Indian society is a pluralistic society with a complex social order characterized by a multitude of ethnic, linguistic, religious and caste divisions. India maintains a robust electoral democracy with a competitive multiparty system at federal and state levels. The worldâ€™s largest democracy is continuously evolving with time.	BCS Students Council provides an unique opportunity to work with the future leaders of India. It provides a platform to the young leaders to showcase their talent and potential. Moreover, it gives an opportunity to work with people from different parts of India/world and understand & respect their culture and traditions.

But only 60% people vote on an average. Our education system is not so much powerful. Our top universities don't rank in top 100 universities of the world.	Because according to me, education system is not what makes you to score high marks by reading without understanding. The education system should work on making students to understand the concepts and use them in welfare of humanity

It is spread across the East Asia and is spread all over China and countries of Asia which is a very big thing, for us we are a Buddha There are countries, because of this, our social political things are soft power, India is spreading all over the world and at the same time, after a few years, another economic power	I want to join the BCS Student Council Election because I want a national platform so that I can understand the people of the country with all my political activities and social work, I can understand the political aspects of the country and politics of Delhi's youth So that I can work as an organization in every district of Delhi.I want to bring special recognition to every district in Delhi so that MITPune gets the strength to involve its Coordinators at the district level across the country and Delhi to form a strong organization and in future for the youth
Shrut Dhananjay Nirhale	UT COORDINATOR - DELHI	9552276123	shruti79729@gmail.com	Pursuing BA (honors) Philosophy	Female	1.Receipient of LIC best student award(for academics) 2. State level netball player The absence of any socio political achievements makes me more hungry to have some and making those achievements under BCS would be an honor in itself.	Being brought up in a middle class marathi household with supporting parents, I was taught to dream big. I aspire to be a civil servant. Indian democracy represents the will of people but representatives dont. I want to get into civil Services so that I can understand how system works and also be in touch with masses as well as leaders. In later years when everything will be constant, I will try to participate in politics. That's why I'm trying to be politically conscious although not politically active still.	In the 21st century India has got many milestones which can be only achieved by endeavours of youth in India. We need to check problems like poverty, unemployment and climate change. The main challenge in status quo though is engagement of people in endless protests without a clear goal. But I positively believe that India is unstoppable and we'll soon become a superpower! Currently, due to extremist political ideology, almost all the countries are suffering. I believe that we need to adopt an all inclusive policy globally and end discrimination of all kinds.	The desire to not just attend the 4 day BCS event but to actually work for it has motivated me. The Students' Council will give me a platform to enhance my leadership and management skills. Also, I'll be able to voice opinion for the students in New Delhi.
